

5kW EVC Li-Ion Charger Series

Features:

- Adjustable output 30V~58V for different application
- High efficiency
- CAN communication
- Fan-cooling
- Operation temperature range: -40oC~55oC
- Input OVP and UVP
- Output OCP, OVP, SCP, OTP,
- Supports parallel operation and N+M redundant system connection

Input Parameters			Output Parameters			
Input Voltage Range 3-Phase	380	VAC	Output Voltage Range	MIN MAX	30 58	VDC
			Output Current	MAX	100	A
