

## 6.6kW EVC Li-Ion Charger Series

### Features:

- Universal AC Input: 90~264Vac
- Output Power: 6.6kW
- Ultra-High Reliable On-Board Design
- Compatible with Liquid Cooling and Air Cooling
- High Efficiency: Up to 96%
- Around Protections: OVP, OCP, SCP, OTP, UVLO
- Low Temperature Start Up @ -40°C
- Temperature Full Load Operation @ 60°C
- IP67 Ingress Grade

Input Parameters				Output Parameters			
Input Voltage Range	MIN	90	VAC	Output Voltage Range	MIN	200	VDC
	MAX	264			MAX	420	
Input Current	MAX	44	A	Output Current	MAX	20	A
